Senate Republicans Support Dan Kelly for Supreme Court Justice

Wisconsin voters face an important election on April 4, where they will decide the fate of a generation of reforms in the state, supported by Republicans in the state Senate, including those enacted under Governors Tommy Thompson and Scott Walker. Justice Dan Kelly will respect the role of the legislature, uphold the rule of law, put victims before criminals, and protect the constitutional rights of Wisconsin citizens.

Justice Kelly's opponent, Milwaukee Judge Janet Protasiewicz, is intent on imposing her liberal values on all of Wisconsin. A candidate for Supreme Court has never been so open about her intent to legislate from the bench, and with her on the Court, citizens would be denied a Justice with an open mind. She seeks to put her thumb on the scale by ruling based on her liberal political views rather than applying the law as written.

With so many issues on the ballot in April, the choice for Wisconsin families, taxpayers and sportsmen could not be more clear. Therefore, we are proud to support and endorse Justice Dan Kelly for Wisconsin Supreme Court.
